

PROSPECT AVE INJUNCTION DISSOLVED BY SIEBECKER

Judge of the Circuit Court Decides That the Milwaukee Road Has a Right To Build the Tracks in Question.

BURPEE SERVES NOTICE OF APPEAL

This Move on the Part of the City Will Cause Delay—It Will Be Impossible for the Company to Do Anything Until Spring.

Judge Siebecker has delivered a resounding slap in the face of the aldermanic majority in the council who opposed the Milwaukee road crossing on Prospect avenue. The frivolous nature of the opposition is plainly exposed by the decision of the court dissolving the injunction and allowing the road to go on with its work.

Now the gang are for delay. The city attorney has been instructed to prepare papers for an appeal to the Supreme court. There is no hope that the Supreme court will reverse Judge Siebecker, but the object is to annoy the railway officials. In the meanwhile all these legal proceedings will cost the taxpayer a pretty penny, and nothing gained.

The judge's findings were filed in the office of the clerk of the circuit court this morning and gave the railroad the right to go in and construct their tracks.

Judge Siebecker decides that the company has a right to build the tracks under the legislative rights granted to railroad companies, and that their acts in laying the tracks were within those rights, and necessary for their business in connection with their freight house.

The full text of the judge's findings are as follows:

"Hearing of motion on order requiring plaintiff to show cause before the court why the order heretofore made in this action by the county court of Rock county, restraining and enjoining the defendant company from making any excavation and laying ties and rails within the limits of a certain street of said city, known as Prospect avenue, during the pendency of this action, should not be vacated and set aside, upon the notice, verified pleadings, affidavits and proceedings had herein and now on record in the case; Messrs. Jackson & Jackson, with Buxton Hanson of counsel appearing for and on behalf of the plaintiff; and said counsel having been heard upon the issues presented and the matter having been submitted for determination, and it appearing to the satisfaction of the court that the defendant company is acting within the au-

thority granted by the legislature of this state to railroad companies in all the matters that it is now proposing to do in and upon said Prospect avenue without first procuring the consent of the common council of said city of Janesville; and it further appearing upon the issues and facts before the court that the construction of the proposed track over the said street is necessary and proper to reach the defendant's depot to be erected upon lots adjacent to said street, which is to be used in the conduct and operation of its business at said city of Janesville; on motion of defendant's attorneys, "It is ordered that the order heretofore made and entered in this action by the county court of said county, whereby the defendant is restrained, and enjoined from prosecuting the work of construction of its road and road-bed across said street, and the same is hereby vacated and set aside."

City Attorney Burpee was seen about the matter this morning. He said the city would at once appeal to the Supreme court from the decision and that the notice of appeal would be served upon the company's attorneys at once. That the city did not intend to let this decision have the notice of appeal served at once, before the company could get any work down to the street and complete the work.

The notice of appeal will stop the railroad company from doing any work on their tracks or station, Supreme court. This move will delay affairs so that it will be impossible for the railroad company to do anything further in the matter until next spring, as a decision in the case will not be rendered until after winter sets in, so that there will be no new freight house on North Main street this season.

The council has contended that the railroad companies had no right to cross any street in the city, even on grade, with anything but a main line track. Judge Siebecker's findings, if sustained by the Supreme court, will upset this theory. The outcome of the case in the supreme court will be watched with interest.

She was taking cigars and cigarettes from the passengers, and made an attempt to snatch a cigar from the mouth of Eugene Foley, a traveling man from Ulica. Foley slapped her face and she immediately terminated her crusade against tobacco. Foley afterward apologized for striking her.

RIVERS ARE RAGING TORRENTS.

Great Damage Done by Streams in the Valleys of Arizona.

Tucson, Ariz., Aug. 16.—The Santa Cruz river reaches the foot of Congress street, overflowing the valley for a mile. Severe storms have visited southern Arizona almost daily for the past ten days. Railroads from Sonora and Bisbee, connecting with the Southern Pacific, are paralyzed. A large bridge was washed away near Fairbank on the Arizona & New Mexico road. A body was seen floating down the river followed by a buggy.

A storm which was almost a cyclone visited Tucson this week, tearing off several roofs and demolishing the gas works. All rivers are raging torrents.

FARMERS HELD UP BY LONE BURGLAR

Posse with Rifles and Shotguns Headed by a Deputy Sheriff Have Fugitive Surrounded.

La Crosse, Wis., Aug. 16.—A posse of farmers led by a deputy sheriff, armed with rifles, shot guns and revolvers, and accompanied by a pack of bloodhounds was held at bay last night by a solitary burglar concealed in a corn field near West Salem, this county.

The burglar entered the farm house of William shaft and stole a quantity of jewels and other valuables. Deputy Sheriff Polimer was telephoned for, and heads the party. The burglar was seen on the farm yesterday morning, but when discovered fled to a nearby corn field. Shaft summoned his neighbors and a few hours later the entire farming community for several miles around had arrived on the scene, and armed men are now patrolling the outskirts of the field.

The burglar has been seen several times but none of the farmers is disposed to attempt the capture, fearing the fellow may be armed and desperate. It is believed the burglar is still in the cornfield and the siege will be kept up until he is captured.

NEW DECORATIVE FAD IN ST. LOUIS

Society Women of the Missouri Metropolis Use Pineapples to Ornament Dinner Tables.

St. Louis, Aug. 16.—A fad has developed a new industry in St. Louis. Fashionable women have created a demand for a product that heretofore has attracted little attention in the local market. A bright society leader discovered that pineapples would make a beautiful and appropriate decoration for the dinner table.

Now there is a new note in the motif of the Third Street market. Landaus and Victorias thread their way through the maze of hucksters' wagons, and richly gowned women come for pineapples. The fruit is judged not only by its food quality but by its artistic beauty.

The decorative pineapple must wear its eye delighting crown of green palmlike leaves, by right of which it claims precedence as the king of fruits.

WANTS TO BE STATE

Delegate Wilcox Will Present a Bill for the Admission of Hawaii at Next Congress.

Honolulu, Aug. 16.—Delegate Wilcox is managing a movement toward securing the admission of Hawaii to the American union as a state. This movement has already counteracted the plan for the annexation of the islands as a county or number of counties to the state of California.

Hawaii will apply through Delegate Wilcox for statehood next winter. He sees no reason why Hawaii should not become a state along with Arizona and New Mexico. From the main standpoint of population and wealth, her claims are better than those of the other territories.

There will be a clause in the bill for the exclusion of Chinese from Hawaii. As steamship and sugar companies wish to have a cable laid between the United States and the new territory and as the delegate has it in his power to prevent the laying of the cable for some time he is able to insist upon the support of the companies in his proposition of excluding Chinese.

Safe Blowers Wreck and Rob? Chicago, Aug. 16.—Safe robbers forced an entrance into the offices of the Henry Wilbert pickle and ketchup factory, No. 1203 South Paulina street, before daylight. They forced open the safe with dynamite and escaped with \$800 in currency.

Steamer Ashore on Island. Salem, Mass., Aug. 16.—The United Fruit Company's steamer Ethelwood, bound from Port Plata, Jamaica, for Boston, with bananas, is reported ashore on Baker's Island off this harbor. It is thought she lost her course in the fog.

STRIKE FEVER IS SPREADING

Chicago and Milwaukee Steel Workers Likely to Fall Into Line.

JOLIET ON STRIKE

Not a Wheel Stirring in the Mills at Bellaire This Morning.

SHAFFER IS HOPEFUL

Pittsburg, Aug. 16.—Pres. Schaffer this morning expressed great satisfaction at the local stand of the Joliet men. He believes the result will be far reaching, not only in the west but in the east as well. The local situation is unchanged to all outward appearances. All the employees at the National Galvanizing Works at McKeesport went out this morning.

Assistant Secretary Tighe wires from Milwaukee that the Bay View steel men are likely to quit work tonight.

In South Chicago, Also. Chicago, Aug. 16.—The steel workers in the Illinois company's South Chicago plant who twice refused to obey Schaffer's strike order are said to be working for another meeting to be held Sunday night to reconsider the two votes taken. This decision is said to be due to the action of the Joliet men. It is likely that Assistant Secretary Tighe will be asked to return to South Chicago for consultation and advice.

Joliet Mills Idle. Joliet, Aug. 16.—In accordance with the action taken at yesterday's meeting the workers in the Illinois steel plant with the exception of those employed in the blast furnaces refused to go to work this morning. All is quiet.

Mr. Tighe and District Vice President W. C. Davis left early this morning for Milwaukee where they hope to see the Amalgamated men in the Bay View mills take similar action and declare a strike immediately.

Bellaire Mill Closed. Bellaire, O., Aug. 16.—The Bellaire mill quit this morning with not a wheel turning. The impression is growing that the shut down will last for months.

Joliet Votes to Strike. Joliet, Ill., Aug. 16.—The steel workers of Joliet, after an exciting seven-hour meeting, voted unanimously last night to strike. They have completely revoke their action of last Sunday, and have joined the Amalgamated association men in the East in their fight for "liberty and unionism."

Officially and formally 300 Amalgamated workers refused to take their places in the mills at 6 o'clock this morning. Actually they quit work at noon yesterday when the representative of the Illinois Steel company granted their request that the mills be closed until after their meeting. The mills will not reopen and the strikers declare that the tie-up will be complete. Three hundred furnace men at the mills remained at work all night. They did so by agreement of the strikers, who do not wish the company to lose the material being worked out. The refusal of the Amalgamated men to go back to work throws out approximately 900 skilled workmen, 700 handy men and 600 helpers. In addition it is confidently predicted that the American Steel and Wire company's plant, employing 2,000 hands, will be forced to close within a week for lack of material, for which it depends upon the Illinois Steel company.

A MILWAUKEE BOY CURED AT HOLY HILL

Recovers Use of His Limbs as Soon as He Reaches the Station—Throws Away Crutches.

Milwaukee, Wis., Aug. 16.—Among the pilgrims who went to Holy Hill yesterday was a young son of Ed. C. Eckstein of 185 Brady street, a traveling man. The father is of the Jewish faith, the mother a Catholic. The boy is a hunchback, and for four years has been unable to walk, his only means of locomotion being a wheeled chair. Everything possible has been done to effect a cure, even to taking the lad to Germany, where he was treated by eminent specialists, but to no avail.

The boy had read a great deal about the cures effected at Holy Hill and the stories made a deep impression on him. Last night Mr. Eckstein was astonished to see his son who for four years had not taken a step, having walked from his room to that of his father. He told his father that he wanted to go to Holy Hill, for he felt sure that he would be cured there.

Mr. Eckstein accordingly took him down to the Union depot in his wheeled chair. To the utter surprise and joy of his parents the boy, when he reached the station platform, climbed out of the chair and walked about, having apparently recovered the use of his legs. The child went with the rest of the pilgrims to the Holy Hill and his

friends are breathlessly awaiting the outcome of the pilgrims.

Hartford, Wis., Aug. 16.—The feast celebrated yesterday at Holy Hill, in honor of the assumption of the Virgin Mary, will be one long remembered by those attending. The attendance numbered between 9,000 and 10,000. The road up the hill, the paths at the side, the park at the foot of the hill and the summit were thronged. Every conveyance for miles around had been pressed into service.

The Via Crucis, or way of the cross, was crowded with devotees. Women in beautiful silks and lawns knelt in the dust beside those in calico and alpaca. There was no distinction. They were all one in mind and object. Cripples and invalids were many. In spite of the large crowd the best of order prevailed.

Frank Gray returned to this city last night, after an all winter's sojourn at Long Beach, California. He reports George and Arthur Baird, former Janesville boys, with their two older brothers, as doing a large grocery business at Long Beach.

PRICE OF POTATOES GOES UP SOARING

Jump in Price from \$1.10 to \$1.25 to \$1.40 and \$1.50 and Going Still Higher in Fall.

Milwaukee, Aug. 16.—Potatoes yesterday took a jump in price from \$1.10 and \$1.25 to \$1.40 and \$1.50 per bushel. It is stated by a local commission man that he buyers need not be surprised if \$2 a bushel was paid for tubers in the fall.

Reports from Minnesota and Wisconsin are that the crops are fairly large, but only large enough to supply the immediate vicinity. However a great many of the local crops will have to go to the south, as agents for southern buyers have been in the north for several weeks buying up every bushel in sight. As a result there will be few potatoes shipped from Milwaukee this fall, although in the past Milwaukee has been an important distributing point.

WARSHIP RANGER SENT TO PANAMA

It Will Go There to Protect American Interests During the Progress of the Revolution.

Washington, Aug. 16.—The navy department this afternoon at the request of the state department, sent orders to the warship Ranger at San Diego to proceed as soon as possible to Panama for the purpose of protecting American interests there during the progress of the Colombian revolution.

George G. Sutherland was a Chicago visitor yesterday.

CRESCUS WILL WEAR THE CROWN; GREAT STALLION BEATS THE ABBOT

Makes a New Race Record—Time for Fastest Heat in Competition Lowered to 2:03 1-4.

New York, Aug. 16.—The long talked of race between Cresceus and The Abbot is now a matter of record. The chestnut stallion by his three heats in 2:03 1/4, 2:06 1/4 and 2:05, when he defeated The Abbot, installs him as the greatest of living trotters. Chalk up three more world's records for him, "and there'll be more to follow."

When Cresceus came dashing down the stretch yesterday afternoon over the track by the sea, with The Abbot, his deposed rival, trying in vain to reach his wheel, and finished the first heat of the \$12,000 match which has been the one topic for weeks in the trotting world, he cut one and one-quarter seconds from the world's race record, his own 2:05, made at Detroit four weeks ago.

When he flashed under the wire in 2:06 1/4 in the second heat, with The Abbot two lengths back of the distance flag, he had shattered the record for a two heat race, against his own 2:06 1/4 and 2:05, which were post.

BOER SUCCESS IN TRANSVAAL

Reports in Amsterdam Say That Lydensberg Is Recaptured.

BOTHA'S BOLD RAID

Attacks a Refugee Camp at Mideleborg and Liberates a Thousand Men.

BATTLE WITH BOTHA

Amsterdam, Aug. 16.—The Boers' "European agents" here have received reports of an important Boer success in the Transvaal.

According to these reports Lydensburg has been recaptured, while Commandant Botha attacked the refugee camp at Mideleborg and liberated 1,000 men.

The same authority says that 800 colonials, who had been enrolled in the British ranks, have deserted to the Boers.

Mideleborg, Transvaal, Aug. 16.—A company of British scouts are reported ambushed near New Bethesda. No details.

Expect Battle With Botha. Durban, Aug. 16.—A decisive engagement is reported on the Zululand border, where General Botha, with 4,000 Boers, has been located. Emmet's command of 300 men have reinforced the Boers at Babango. The Boers appear to be hemmed in. Sixty burghers on Saturday attempted to rush a British post, but were repulsed.

Sweeping Orange Colony. Pretoria, Aug. 16.—The sweeping movements in all parts of the Orange River colony have resulted in the British columns captured a number of prisoners and quantities of stock and wagons. The Boers continue their sniping tactics. The erection of blockhouses in all parts of the country by the British continues. Burghers in the Orange River colony are surrendering in small numbers daily.

Kitchener Will Stay. London, Aug. 16.—Colonial Secretary Chamberlain today made an absolute and unqualified denial of the report that Kitchener will return to England on Sept. 15, the date when his proclamation in regard to the banishment of burghers in the field will go into effect, and that he will be succeeded in command in South Africa by General Lyttleton.

A. J. Van Anker of Beloit was in the city last night on business.

PAYNE IS BACK HOME FROM EUROPE; HE REFUSES TO TALK POLITICS

In His Quest for Health He Laid Aside Those Affairs, But Looked Into Commercial Conditions.

Milwaukee, Aug. 16.—Henry C. Payne arrived home yesterday afternoon after a stay of several months abroad. Mr. Payne was warmly greeted by old friends when he walked into the Pfister hotel fresh from New York. He was looking much better than when he left Milwaukee last spring, and said his health had improved a great deal while abroad. Had it not been for the sudden attack of gout which came on while he was at Carlsbad, Mr. Payne said he would be feeling better than he had for years. He had to use a cane for walking, but hopes to overcome his present enemy in a short time when he will feel the benefits of his trip.

Mr. Payne excused himself from talking politics on the ground that

since his departure from Milwaukee he had shut political matters out from his mind entirely and will have to take some time to regain his grasp on the political situation, state and national. While in Germany Mr. Payne gave considerable attention to the financial situation in that country. He said that for a time matters looked very bad in financial circles, but it seemed that the crisis was over when he left.

In a general way he thought conditions in Europe showed an improvement over what they were when he was abroad a few years ago. American products, Mr. Payne said, were making great inroads abroad, especially in Germany and Austria, and that if this continued those countries would probably adopt measures to shut out our products.

GULF COAST STORM LAST NIGHT CAUSED GREAT PROPERTY DAMAGE

Only Scattering Reports Have Been Received, But the News at Hand is Very Alarming.

New Orleans, Aug. 16.—The damage by the storm in this city will reach thousands of dollars. No lives are reported lost. The Bucktown gambling resort was swept away and a big portion of the west end inundated. The old basin canal coming into the city on Toulouse street was overflowed, completely flooding the second district. The steamer Neptune pounded herself to pieces at the pier and sank.

Atlanta, Ga., Aug. 16.—The weather forecaster here predicts that the gulf storm will move up the Atlantic coast and that Atlanta is likely to come in for a severe blow. Nothing was heard this morning from Mobile or New Orleans. It is feared that great damage was done in Mobile.

Montgomery, Ala., Aug. 16.—A Mobile dispatch says the water there began to subside at midnight. A big

lumber mill north of Mobile is reported to be destroyed and a number of employees killed. A heavy wind is blowing here.

Washington, Aug. 16.—The weather bureau reports that the storm has moved northerly from the gulf and that all danger on the gulf coast has passed.

SLAPS MRS. NATION'S FACE.

Traveling Man Resents Her Attempt to Snatch His Cigar.

Watertown, N. Y., Aug. 16.—Mrs. Carrie Nation added to her experience yesterday when her face was slapped by a man who resented her grabbing for a cigar he was smoking. She was taking a trip on one of the St. Lawrence River boats and was giving the passengers a trade against the use of tobacco.

Janesville will not be a member of the Western Polo League this winter.

F. A. Taylor, is authority for the statement that while the rink would undoubtedly be opened this winter for roller skating, there would be no polo games.

Mr. Taylor states that his experience with the games last winter showed that there was no money in polo. The expense of running a team more than offset the increased number of admissions to the rink on the nights games were played.

Another reason why Mr. Taylor does not wish to take up polo is that he has other more important business to attend to and he cannot give the time necessary to make the game a success.

Years ago Janesville was one of the best polo cities in the west and had a team that held its own with any amateur team in the country.

Even then it was not a financial success, although large crowds attended every game. The expense of keeping up a first-class team is quite heavy and soon eats a big hole in the profits.

Polo has been a popular sport ever since its introduction in the west. Last year a number of cities among them Racine, maintained a professional team. This winter will probably see a number of teams located in the different cities in Wisconsin and Illinois.

It is the plan of the promoters of the new league to bring west some 50 of the best players of New England leagues.

Chicago, Milwaukee and Racine and Rockford are interested in the good teams in the rinks.

A good vaudeville troupe will be one of the attractions at the evening fair at Beloit.

IN THE SOCIAL SWIM

Card Party at the Home of Mrs. Mary J. Lappin.—Mrs. H. A. Segers Entertains Party of Young Folks.

Society's circle is never happier than when it finds its center at the pleasant home of Mrs. Mary J. Lappin, 252 Park Place, a home which for many years has come to be known as a synonym of the most gracious hospitality and delightful social entertainment.

Consequently society was in its happiest mood yesterday afternoon when Mrs. Lappin and her daughters, Mrs. E. F. Carpenter, Mary Doty and C. S. Putnam, were the hostesses at one of the most enjoyable afternoon card parties of the summer season.

It was a large company which gathered in the spacious parlors which were specially beautified for the occasion with great bunches of golden glow and sweet peas. The guests were about eighty in number and they made a happy and congenial company. Everyone had a merry time and although the afternoon was devoted to playing six handed euchre there was scarcely a lull in the chorus made by happy voices and joyous laughter.

Those who did not care for card playing spent the afternoon on the broad porch where the hours sped as swiftly and pleasantly as in the parlors where the interest centered in the card tables. Those on the shaded porch found a broader field for conversation and were inclined to think that they had even a better time than the card players. The latter, however, would have indignantly disputed any such claim for novice and veteran player alike found pleasure in handling the bits of card board. When the scores were counted it was found that Mrs. C. C. MacLean had proved herself the most proficient at the game and she was rewarded with a dainty blue white tea set. The consolation prize was a beautiful fan of which Mrs. Jessie Wheeler became the owner.

About five o'clock luncheon was served. The refreshments were exceptionally delicious and the service was faultlessly pretty. The hostesses were assisted by Mesdames C. S. Jackson, J. J. Hall, E. P. Doty H. G. Carter and Mary Yonce.

Shortly after the luncheon hour, goodnights, mingled with expressions of pleasure for a happy afternoon, were said. The party was the second of a series of similar events given by Mesdames Lappin, Carpenter, Doty and Putnam, who will entertain again on Saturday afternoon.

Entertained Young People.

Mr. and Mrs. H. A. Segers entertained a company of young people at their home, 16 North High street, last evening, in honor of Miss Ethel Wood of Chicago. Miss Wood has been spending the summer here and the party was a farewell for her.

Music and games served to pass the evening pleasantly and tempting refreshments were served. A flash light picture was taken of the crowd and will be highly prized as souvenirs by those who were present.

Pleasant Private Party.

There was a pleasant private party at Crystal Springs park last evening about fifty couples of young people joining in the pleasures of the occasion. It was a dancing party and the guest of honor was Mrs. Henry Heldbrink, of Chicago. The party chartered the steamer and the ride to the grounds and home again was a merry one. At the Crystal Springs pavilion the dancing was to the exquisite music of Smith's orchestra.

WE KEEP THE QUALITY UP

What It Means!

The crowds that daily throng our store show that the people know a good thing when they see it. We endeavor every day to give substantial evidence that we are not unmindful of their patronage. Working on the broad principle of enlightened selfishness, we know that we serve ourselves best by serving the public most. To please the great public—the power that makes or mars us all—our best energies are bent, our highest skill engaged.

Pro Bono Publico.

We mention as very special Bargains a variety of Petticoats for summer and fall wear that are worth \$1.00 to \$1.50. **Black Brillantine** with fancy silk stripes around bottom. **Wash Skirts** of duck, Galatea cloth, silkette, light and dark, figured and stripes; these skirts are all made with adjustable yokes. Think of the price we have tacked on **83c** to them.....

Remnants of Wash Goods

About 300 remnants have accumulated; lengths from 2 to 9 or 10 yards. Galicoes, percales, batiste, dimity, &c., light and dark. Each piece is marked at the price for which one can have it, and most of them less than cost.

25c Goods for 14c. To make a clean sweep we offer what we have left of the fine French corded Batiste, regular 25c goods, at 14c a yd. We have sold an immense lot of them and can afford to sacrifice profit to turn the balance into money.

Wrapper News

We are prepared for any demand. If you want a pretty muslin or dimity wrapper, we have them. We are also showing a large line of dark wrappers for fall wear, but you do not necessarily have to wait till fall to wear one. Of the latter we received about 15 styles August 8th in red, blues, blacks and fancies,

LATE TELEGRAPHIC NEWS

FIERCE STORM DOWN SOUTH

Mobile Is Cut Off and Partly Inundated.

MANY LIVES MAY BE LOST.

Twenty Miles of Railroad Track Under Water—Part of New Orleans Flooded—Fears for the Safety of Port Ends People.

Atlanta, Ga., Aug. 15.—The tropical storm which has been raging along the gulf coast for two days has now completely isolated the city of Mobile, Ala. It is known that damage has been done along the water front in that city, but whether there has been loss of life or not is mere conjecture. Nothing has been heard from the country south of Mobile up to the time the last wire to Mobile failed. At 4:30 p. m. the Western Union office in Mobile was abandoned, the water at that time being three feet deep in the operating room. Two hours later communication was had for a few minutes with Mobile. The operator there made his way to the operating room in a boat and sent this message:

"Am on top of the switchboard here with a line man. The water is over three feet deep in the room and it is still rising. The wind is blowing at the rate of fifty miles an hour and we look for worse things tonight. The business district is deserted."

Here the wire failed and nothing more could be heard from him.

The water at 3 o'clock was reported as high as in the great flood of 1893, although at that time the wind was not so high. From Mobile to Port Morgan is thirty-five miles, and on both sides of the bay summer resorts and summer houses are located. These were, it is believed, in the direct path of the storm. It is feared that there has been some loss of life on the islands in Mississippi Sound, just outside of the bar below Port Morgan. These islands, inhabited by French fishermen, are only four or five feet above the water under ordinary stage, and were the scene of great loss of life in 1893. Twenty miles of Louisville & Nashville track through Tennessee swamp, west of Mobile, is under water. From reports of damage done between New Orleans and Mobile, it is believed several days will elapse before the wires are restored outside.

A dispatch received from Mobile early in the afternoon read:

"Under a forty-mile gale the river here has overflowed the cotton wharf and Front and Commerce streets. Water street is flooded two feet deep between St. Michael and Congress. Rowboats were employed to bring out members of the Cotton Exchange at noon."

New Orleans, La., Aug. 15.—A report from Port Eads says all the people living on the east bank of the river have moved up to "Jump," fifteen miles from the mouth of the river. The house of George Cobden, half a mile above the quarantine station, was swept away and fifteen members of the family, including nine children, drowned. The quarantine buildings were badly damaged, but no one injured. The big towboat Chamberlain was driven high in the marsh. Her crew are safe. The government boat General Reese is believed to have been lost. Captain O'Brien's house was swept away, but he was on the boat, which was believed to be outside. The pile driver at Port Eads was sunk.

Up to midnight everything seemed to be safe at the Mississippi coast towns—Bay St. Louis, Pass Christian, Biloxi, Mississippi City and Ocean Springs—but since then, not a word has been heard from them. All wires are down, but no great fear is entertained.

Several large factories in New Orleans, notably Carver's lumber plant and the Crystal Ice factory, had to be closed down on account of the inundation.

Wed After Bride's Arrest.

Chicago, Aug. 15.—After having his fiancée, Mary Zahub, 2544 Wentworth avenue, arrested and arraigned in a police court on charge of larceny as bailed, Charles Jacobs, a prosperous Greek baker and fruit dealer, 463 Canal street, withdrew the prosecution, and five minutes later the couple were married by Justice Prindville in Captain Mahoney's office at the Harrison street police station. The day before they were to be married, the groom declares, he gave his fiancée \$200 to buy dresses. She disappeared, it is said, and her arrest followed.

Troops Guard a Negro.

Atlanta, Ga., Aug. 15.—A special to the Constitution from Charlotte, N. C., says: A company of local militia was ordered out here at midnight to guard the jail. A negro, named William Moore, who on Tuesday attacked Mrs. Lemuel Martin, a young woman, is in jail awaiting his trial, which takes place to-day. There were many threats of lynching and the presence of a large number of men on the streets late last night made the authorities suspicious.

and Urquhart of the Presbyterian church.

ASSERTS THAT THE STRIKE IS LOST

The Iron Trade Review Says That Defections from the Amalgamated Will Come Soon.

Cleveland, O., Aug. 15.—The Iron Trade Review, discussing market and strike conditions, says:

"Events of the week have made it clear that the steel strike is a lost fight. The uncertain elements are the number of weeks that will be required to weary the men of idleness, and how much of its organization will remain to the Amalgamated association when the end comes. The failure of the Federation of Labor to give more than sympathy in aid of the strikers and the refusal of the western members of the Amalgamated association to violate their contracts at the order of their president have been serious blows to the hopes of the leaders. Gains have been made by the strikers at McKeesport and in the Wheeling district, but it is already plain that the strike spirit has reached high mark, and that the news from now on will be of gradual defections."

Cause of Western Defection.

"It appears now that the action of President Shaffer in signing an agreement at New York which he and his associates failed to carry out was one occasion of the western defection, and has caused discontent in other directions that may bring early breaks in the strikers' ranks. The stoppages of the week have been at plants of the National Steel company and the National Tube company. Production of steel is considerably curtailed. At Wheeling the tinishing mills are also idle, and at McKeesport the byt and lap weld departments were closed on Wednesday."

May Have to Pile Iron.

"Little bessemer iron has been purchased for September delivery. Should the present status continue into that month merchant furnaces in the valley would be under the necessity of piling iron or banking. The threatened strike of valley furnace workers has not come, the leaders probably coming to an appreciation of the little effect it would have on the strike under existing conditions."

"As matters stand the production of steel is now closely adjusted to the requirements of the trade and pig iron production is more nearly in line with steel works' consumption. The advances in price that have come in the week are in muck bars, skelp sheets, tinplates, bars and billets. Importations of black plates have already been made and it is understood that the tin house workers of the American Tinplate company will not refuse to ship them."

Rain Keeps Them Off Streets.

Pittsburg, Pa., Aug. 15.—Painter's and the Lindsey & McCutcheon mills resumed this morning with the same force as yesterday. Lower union of the Carnegie plant is still running with the result in doubt. A heavy rainstorm kept the strikers off the streets and no excitement or disorder was reported from anywhere.

Race Feeling Causes Fight.

Muncie, Ind., Aug. 15.—There was a pitched battle between the Greeks and the Americans employed in reballasting the Chicago and Southeastern railway west of Muncie. Ten Greeks were more or less injured and two Americans were hurt. One American knocked down four Greeks with a shovel. It was expected today that the trouble would be renewed, as both sides were prepared for battle last night. A large number of Greeks laid in a supply of ammunition. The trouble was caused by race prejudice.

Will Involve 30,000 Girls.

New York, Aug. 15.—It is estimated that 30,000 girls will be involved in a strike movement to begin in the flannel waist and women's and children's wear industries in and near this city next week. Increase in wages and a uniform working day are the objects aimed at.

Hopes to Avert War.

Washington, Aug. 15.—So intense is the interest felt by the administration in the situation in Colombia and Venezuela that Secretary Hay before returning to his summer home at Sunapee Lake, New Hampshire, will go to Canton for a personal conference with President McKinley. The authorities here hope that war between the two countries will be avoided, and the United States stands ready to act as an intermediary and endeavor to restore harmonious relations between the two republics if they are willing to accept such services.

HIS PLEA STIRS HEARERS

Michael Davitt's Oration on Ireland's Cause Cheered.

TALKS AT CHICAGO PICNIC.

Scores England's Boer War Policy—Davitt Blames the Irish for Emigrating—O'Donovan Rossa Heard at a Different Meeting Place.

Chicago, Aug. 15.—"It is as certain as anything can be in history that had Mr. Gladstone given Mr. Chamberlain the position in his cabinet which he subsequently received from Lord Salisbury on leaving the Liberals he would have been a minister for the colonies on the lines of his radical and post-majuba principles and a supporter of home rule. What is he to-day? The chief author of a war which has scandalized all right-thinking minds as a war of unparalleled baseness, which has brought its penalties of moral bankruptcy and of a shattered military prestige to England." Michael Davitt, in a masterly oration to 10,000 Irish men and women at Sunnyside Park yesterday afternoon, declared that Mr. Gladstone had underrated Mr. Chamberlain's power and by refusing him two posts in the Gladstone cabinet not only "made a fatal mistake," but alienated from the home rule cause a man who might have proved a tower of vast strength. More than this, Mr. Davitt declared that in denying a small measure of local freedom to the Irish people in 1893, "England has been plunged into a war which has exposed her to the civilized world as the callous enemy of that freedom which her writers have hypocritically boasted it was her mission to teach mankind." Though Mr. Davitt pleaded in the main for a united backing from the Irish people in America for the emancipation of their nation, he could not refrain from giving his "political omissions" which in the past, to his mind, had done injury to that cause. He blamed the Irish for emigrating, and earnestly asked the Celtic people in America no more to entice from the "bould sod" the sturdy sons and daughters whose departure from Irish soil would eventually mean the complete collapse of the nationalistic movement.

Rossa to the Nationalists.

"We must take up arms and fight for the independence of Ireland, as the American colonies, fought for theirs, for that is the only way in which we can gain our liberty from England, the hated oppressor," declared J. O'Donovan Rossa to the Irish nationalists assembled in Oswald's Grove last night. The great Irish nationalist, fired with his old-time enthusiasm, depicted in glowing language the wrongs of Ireland, stirring his audience of 3,000 to a high pitch of excitement. "What good can a hundred Irishmen do in parliament?" he asked. "What can they accomplish against five or six times that number of opponents? Nothing, nothing at all. Force and force alone will free Ireland. England fears our firebrands in her great cities, and that fear has done much to soften and temper the acts of her prime ministers. I do not believe in waiting for an opportunity to strike; strike now, make your opportunity while the British are in South Africa. The best leaders of the nationalist cause in Ireland are advocates of force; they realize that there is no chance of our securing parliamentary redress for our wrongs."

WISCONSIN WEATHER FORECAST
Partly cloudy tonight and Saturday probably showers.

Chile and Argentine have a long standing boundary dispute which has recently assumed a serious aspect. It seems to be an object of special satisfaction to the government of Chile to participate in the acceptance of a general arbitration policy. It has been her policy never to resort to arms until all resources of conciliation had been exhausted and yet we remember so many disastrous wars which have arisen over the same boundary question, especially in the war of the Pacific and the war of 1891.

And yet, Chile has not escaped the censure of the European press because of her grasping tendencies. She seems somewhat suffocated by her narrow boundaries, and would evidently like to enlarge them by preying on her neighbors.

There is a necessity for a treaty of commerce upon one general basis which should be extended to the republics of Central and South America. Commercial treaties between all Central and South American states would result in the growth of the international commerce of Chile and strengthen the ties of friendship between the states which now are looking for causes of war.

Brazil is to be congratulated on having restored her credit and for having further adding credential and public respect both at home and abroad. Cash payment has been resumed and the government has fully provided against any future break.

Some journals seem to think that these states will of necessity be annexed to the United States in the near future, compelled by the activity of foreign countries especially Germany, and also by the necessity of providing peace and industry where now war and famine threaten.

No doubt the effect would be beneficial on the Central and South American states, but what might be the effect on the United States is another question.

Our Secretary of the Treasury is proving an obstacle to the Russian government in the tariff war, so called. Mr. Gage is very obstinate in his effort to enforce the retaliatory claims of the tariff law of 1897. The question about which there is such a difference of opinion, is, does Russia pay a bounty on the sugar her refiners ship out of the country. The Russian ambassador thinks the war was started through a misunderstanding of the attitude of Russia towards the manufacturers, and he claims that the system is not one of bounty.

Russia refunds to the sugar refiners the amount they have already paid on local domestic taxes. Certificates of export are given, which are worth eight per cent. less than spot cash, and these certificates can be used in paying taxes the following year.

This is in brief the Russian system of encouraging exportation of native goods. They do not call it bounty paying. Mr. Gage does, and that is where the rub comes.

If this interpretation is put on the Russian tariff laws, it may lead to a tariff war with other countries besides Russia and we will lose as we have already lost much more in their retaliatory tariffs on our machinery and foods.

The outcome of such a stand may be destructive to commercial and industrial progress. It creates a breach in international friendship and necessitates rebuilding of international trade.

There is in several states a law prohibiting the printing of the United States flag or any inscription upon it. On the face of it it seems to be a harmless law though a needless one, for respect that must be commanded is little worth having.

A few days ago a paper reprinted a cartoon gotten up for the Detroit News and was suppressed in several cities, so that actual damage resulted to the good name of the paper probably because of the political reasons rather than because of zeal in

commanding respect for the American flag.

The sanctity of the flag is necessary, but the freedom of the press is a sacred right which is one of the foundation principles of our republic, and in one way or another, is being constantly invaded.

The postoffice department is practically a censor of the press, claiming authority to determine not only what may properly be printed but what methods of business management shall be followed by a publication seeking admittance to the mails. In this particular case most people will believe that the action was taken less in defense of the flag than in behalf of the political party against which the cartoon was directed.

Phillips is experiencing the same difficulty. Milwaukee and Ashland have had with their systems of book-keeping. Trouble will surely come until accountants apply proper methods to their problem.

Wireless telegraphy may assist our future Arctic explorations, as lack of communication with a base of supplies has been the worst difficulty.

Tammany has succeeded because it is administered solely according to the precepts of worldly wisdom, but she seems to be suffering by the same precept.

Antisemitism in Vienna has transfigured differences of opinion into a distinct, instinctive party of opposition.

It is likely that some of our assessors may change their minds on the state tax question.

If Mr. Kipling goes to Mandalay again he may go on a trolley car.

Fashions and Fancies.
Triple skirts are among the fancies. The habit of giving entertainments outside of one's own house seems to be growing, and the restaurant function saves much trouble and worry to a hostess.

The single pearl, diamond or turquoise button for the flap of the finger purse and pocketbook continues to be a dainty and elegant fashion.

From London comes the news that the latest walking skirts are cleverly fitted into triangular, square and hexagonal forms. This refers not to the handle alone, but to the stick proper.

The perfection of dressing lies in simplicity, which when properly treated can be regal and beautiful. This explains the vogue of the velvet frock, which is beloved by many women.

Among the fashionable skins employed in leather goods are alligator, seal lion, elephant, pig, walrus, seal, monkey, snake and lizard.

Dogged Obstinacy.
"I understand that dogs can have appendicitis."

"Indeed! Well, there's one thing certain, they'll never ask for an operation."—Cleveland Plain Dealer.

Selfishness.
"You look very badly in a shirt waist," said the punctilious man.
"I'm sorry," said the easy going citizen, "but I'd rather look badly than feel badly."—Washington Star.

Those Loving Girls.
Maude—Do you think my new hat is becoming, dear?
Clara—Yes, indeed. Why, it actually makes you look ten years younger.—Chicago News.

The Influence of Heels.
A well known surgeon chiropodist says: "The so called 'common sense' shoe, with its miserably low, flat heel, has been the cause of more flat feet and falling insteeps than all other causes combined." A heel which is lower than the ball of the foot, he says, brings all the pressure on the instep without affording the necessary support for the arch of the foot, and it is therefore but natural that the arch of the foot should break or fall, thus giving birth to the flat foot.

Forestry in Michigan.
Michigan is at last endeavoring to reforest the pine barrens. It has turned over to the forestry commission 57,000 acres of land at the headwaters of various streams and created a department of forestry in the state university. This is an example which many other states might follow with profit.—Toledo Blade.

Face Powder.
A pure face powder will do no harm, but it should be dusted on lightly and well washed out of the skin at night. It is advisable to apply an invisible cold cream first, then wipe off the surplus before using powder. This serves to protect the skin and furnishes a slightly adhesive surface for the powder.—New York Ledger Monthly.

When McKinley Met Knox.
It is said that President McKinley first met Attorney General Knox when, in 1869, he visited Mount Union College in Ohio, where Mr. Knox was then a student. The latter helped to bring out the student vote which a little later greatly aided in electing Mr. McKinley Prosecuting Attorney of Stark county.

Growing Tobacco Under Cloth.
Not only is the growing of the finest grade of Sumatra tobacco under cloth in progress in Connecticut, but in Decatur county, Georgia, much is being done along that line, and very successfully. The state commissioner of agriculture, Mr. Stevens of Atlanta, has been looking at the crop in Decatur county. He finds 1,500 acres of tobacco on one farm, 500 of this given to Sumatra under cloth at a cost of \$30,000. That farm sold more than 451,000 pounds of tobacco last year at prices ranging from 20 cents to \$1 a pound.

Texas Becoming Gay.
Texas is becoming very gay. State Geologist Dumble has disclosed to the people of that state sources of mineral wealth that are astounding. He says that in one county alone, that of Cherokee, there are 800,000,000 tons of rich iron ore in sight, and that in east Texas, as a whole, there are 3,000,000,000 tons. And by the side of this ore lies all the coal necessary to work the ore into shape. The geologist makes the flat statement that "no country in the world has cheaper material for something iron than east Texas."

Cats Aboard Liners.
Every large ocean liner carrying passengers, always has on board, from six to ten cats, these being apportioned to various parts of the ship, as well as appearing on the vessel's books as regards the rations, they draw. A few of the first-class saloon cats have become quite celebrated, especially in the long-voyage boats that go to India and Australia. Large sums have been offered for one saaloon cat on a great line, and the staff have to guard it strictly from acquisitive admirers, in whose luggage it has several times been found.

ANNUAL MEETING OF LIBRARY BOARD

Former Officers Were All Re-elected,
and the Standing Committees
Were All Reappointed.

The annual meeting of the public library board for the purpose of organization and election of officers was held yesterday afternoon at 4:30 o'clock. There is but one change in the membership of the board, Supt. H. C. Buell taking the place of Supt. D. D. Mayne.

The election resulted in the reelection of the former officers who have given such efficient service in the past, and for another year William Bladon will continue as president of the board, Mrs. O. H. Fethers as vice president and Miss Gertrude Cobb as secretary.

The standing committees of last year were reappointed with but one exception, the substitution of Supt. Buell for Supt. Mayne on the library committee. The three standing committees are the library committee, the rooms committee and the finance committee.

Mrs. Louise E. Best as librarian, Mrs. Minnie Menzies as children's librarian, and Miss Gertrude Skavlen as assistant librarian were re-elected for the coming year.

IN THE MYSTERY OF DEATH.

Mrs. Rose Gibbons Funeral.

Sad but beautiful was the funeral service which was held from St. Mary's church this morning at 9 o'clock in memory of the late Mrs. Rose Gibbons. The sacred edifice was filled with sorrowing friends and the casket in which the precious form lay was heavily laden with a wealth of beautiful flowers, sweet messengers of sympathy. Rev. Father W. A. Goebel celebrated the requiem mass and the choir, assisted by Prof. William Thiele at the organ, rendered the appropriate song service. The choir sang the Gregorian mass and "Jesus, Lover of My Soul" by Wiegand, was exquisitely sung by Miss Lillian Bourgemyer.

As the funeral party left the church the choir sang "Nearer My God to Thee." Among the many floral tributes were some beautiful designs from the choir of which Miss Tessie and Andrew Gibbons, daughter and son of the deceased woman, are members. In respect for these beamed ones the choir accompanied the funeral party to the depot after the funeral service.

The remains were taken on the 11:35 train to the former home of the deceased woman, Albany, Wis., for interment. The pall bearers were John O'Donnell, Philip Rudden, Edward Sheehan and Stephen Leary.

Brief Funeral Service.

A brief funeral service for Edwin Arthur Laymonde, only son of Mr. and Mrs. H. A. Laymonde, was held from the home of the little one's grandparents, Mr. and Mrs. M. A. Ott, 106 North Blue street, yesterday afternoon at 5 o'clock. Rev. A. H. Barrington officiated and the interment was in Oak Hill cemetery. Mrs. Laymonde, the bereaved mother, who has been in a dangerously critical condition, is somewhat better and hopes of her recovery are entertained.

Richard M. Fenner Funeral.

Funeral services over the late Richard M. Fenner will be held from the home of his son-in-law, Fred J. Day, South Third street, tomorrow afternoon at 3 o'clock. Rev. W. W. Woodside of the First M. E. church will officiate and the interment will be in Oak Hill cemetery.

Lonely Burial at Oak Hill.
There was a lonely burial at Oak Hill cemetery this morning when Charles Scott, the colored man who died in the lock-up yesterday, was placed in his last resting place by Undertaker Frank Kimball. There was no funeral service and no mourners were present at the grave side.

AN EXCURSION TO MADISON.

Janesville Machine Company Workers Will Have an Outing.

The Janesville Machine company excursion to Madison tomorrow bids fair to be a big one. It is estimated that between four and five hundred tickets will be sold from this city. A great deal of enthusiasm over the excursion has been aroused among the employees of the works and all sorts of games and amusements have been arranged.

The Imperial band will accompany the excursionists and discourse sweet music on the way and at the grounds. They will also make a parade of the streets this evening in the interests of the excursion. Challenges were issued last night by the molders and blacksmiths of the concern which were accepted by the men from other departments and the probabilities are that there will be at least two red hot games of base ball.

MUST KEEP MOVING

Brooks' Cash Tea Company Don't Handle Stock That is Old

There is one advantage in purchasing tea and coffee at the Brooks' Cash Tea company. At any and all times you are assured that what you purchase is fresh stock. In front of this enterprising firm's place of business today were stacked high several bulky empty tins, that but a few days ago arrived from the Chicago and Eastern market filled with teas and coffees. During the month of July it is a safe prediction to state that the Brooks store sold more tea, coffee and spices than any dozen grocery stores combined. Mr. Brooks, since assuming charge, has built up a business that he may well feel proud of. His line of goods speak for themselves and at all times are sold at closest market figures.

Local horse admirers will find at the Beloit fair next week one of the best horse programs ever carried out in Wisconsin. Big purses in each event. Fair opens next Tuesday.

This week Bort, Bailey & Co. have an attractive display of printed flannelettes at 15c per yard. Hard to tell the patterns and goods from the 75c and 81c per yard values.

The base ball game at Clinton yesterday between H. Kath's Colts and the Nebraska Indians resulted in a victory for Clinton by a score of 15 to 12.

A good sized delegation from Janesville and vicinity will attend the county fair to be held at Beloit next week. Cheap excursion rates have been granted on both railroads.

Any child under fourteen years of age can receive a free ticket to the Beloit Inter-State fair to be held next week ending at Al. Smith's connections here on the bridge.

The excursion to Madison tomorrow over the Chicago & Northwestern railroad and under the auspices of the Janesville Machine company employees, is a public affair and not private.

There is not much expense connected with attending the Beloit fair for those who desire to go from Janesville. Cheap rates have been granted by the railroads. Don't forget the dates, Aug. 20, 21, 22 and 23.

One hundred pieces of English flannelettes have been placed on sale by Bort, Bailey & Co., at 15c per yard.

At the evening fair at Beloit the halls and grounds will be brilliantly illuminated with electric lights, making a beautiful and pleasing effect.

The curtain of the Myers Grand will be raised for the first time this season tonight, when "A Baggage Check," Chas. E. Blaney's farce comedy, will be presented. It is said to be a great show and produced by a capable company.

In the circuit court, Wednesday judgment was rendered against A. Woodard of Clinton in favor of the Citizens' Bank of Clinton for \$591.89. Papers had been filed in the circuit court in the foreclosure case of the Bower City Bank against John Barlass.

The speaker of the day at the Sunday school rally on the 29th will be Prof. H. M. Hamill, field secretary of the International Sunday school association. Prof. Hamill is the acknowledged leader of Sunday School work in this country.

W. S. Jeffris and the members of his Sunday school class enjoyed a picnic at Delavan lake yesterday. Mr. Jeffris drove the party over to the beautiful summer resort where the day was spent in a jolly way. Boating, bathing and a visit to the Y. M. C. A. camp were included in the day's program.

The examination of J. Oscar Kirkpatrick for going through Dr. James Mills' safe, comes up tomorrow morning at 10 o'clock. The trial of O'Rourke and Dougherty is also set for that time. A jury will be drawn in their case, and the trial taken up Monday.

George A. Hobbs, the Wisconsin telephone man, arrested at Racine for stealing copper wire from the company at that place, plead guilty to the charge and was sentenced to five months in the county jail. His wife fainted when sentence was pronounced, and had to be carried to her home. She is reported to be in a serious condition on account of the shock.

The Chicago sorting room of Rudolph & Donahue, after a very successful run of ten weeks, was closed yesterday. Mr. Shurtliff was on hand with ice cream, cakes and wafers. Then for a time work was forgotten. Before leaving, Miss Maggie Egan, in behalf of the employees, with appropriate remarks, presented their foreman, A. B. Jones, with a Pecker fountain pen.

Save your peach order for us. We will soon receive a large consignment for canning and at prices most reasonable. Both phones, D. Drummond & Son, Drumm...

Grading on the New Electric Line is Now Going on at Several Points.

Supervisor A. C. Powers of Beloit was in the city yesterday in the interests of the Beloit, Delavan Lake and Janesville electric road. He is engaged in closing up deals for the right of way of the road between Beloit and this city. There are still some people who have not given the road an option for a right of way. He was trying to come to an agreement with these people as to the value of their rights.

Mr. R. W. Hill is still at work in the section between Beloit and Rockford securing the deeds to the property on which the road holds options. He expected to be at work between Beloit and this city last week, but was delayed in securing his deeds for the other section and did not get to work in this vicinity.

The grading on the new line is now going on at several points between Beloit and Rockford and good progress is being made with the work.

Beloit will be benefited by the new line in another way that will be appreciated by the people of that place. The notorious "Willows" along Turtle creek south of the Illinois line will be cleaned out and graded up which will do away with the stopping place of numbers of tramps and crooks that have been a terror to Beloit.

LADY MINSTRELS ST. MARY'S CHURCH

A ladies' minstrel show is on the calendar for the latter part of September. It is to be given by the ladies of St. Mary's church, under the auspices of the choir and the proceeds will be devoted to the building fund for the new church.

Rev. Father L. H. Vaughn, of Lone Rock, has kindly volunteered to direct and stage the performance and he will be in the city next Tuesday to begin the work.

A meeting of those who are to take part will be held on Tuesday evening and no definite arrangements will be made until then. Father Vaughn is eminently qualified for the work which he is to do.

Before he began to study for the priesthood at the persuasion of Rev. Father W. A. Goebel of this city, he was a well known actor and he was supporting Modjeska when he left the stage. He has staged several minstrel performances in Fond du Lac with great success. Father Vaughn is well known and very popular in this city, where he has given brilliant lectures.

The interlocutor and end men will not be selected until Tuesday evening but so far as possible those who take part in the performance will be members of St. Mary's church. Definite plans will be determined upon Tuesday evening.

REMIND ONE OF CHICAGO.

Five Clerks Required at Dedrick's to Wait On Trade.

Fruit buyers in front of Dedrick Bros' store this morning made the place look like a South Water street rush in Chicago. Buyers from all parts of the city were there to get an early choice of peaches, pears, grapes and other fruits. Dedrick's prices are what is asked. Peaches soft as low as 68 cents per crate of four baskets. Dedrick's are direct shippers from Chicago and Michigan and will for the balance of the summer be fruit headquarters in Janesville.

FALL ANNOUNCEMENT

McDaniels and Achterberg announce their early arrival of fall and winter wools.

The public is cordially invited to call and inspect the most complete gathering of Suits, Overcoats and Trousers ever shown in Janesville. Order your winter garments early and avoid the rush.

ROASTED BY ELECTRICITY.

Coffees Handled by Richter Bros., are Being Eagerly Sought.

Judging by the large number of sales made of late by Richter Bros. on Richheimer coffees it is quite evident that local coffee drinkers think well of this favorite brand of goods. Richheimer coffee is selling at prices ranging from 15 to 40 cents per pound.

NEW SALTING PROCESS

But Few People Know What Good Salted Peanuts Taste Like

"I think it is safe to state that but few people in Janesville realize how delicious good salted peanuts taste," said a Third ward lady as she emerged from the Palace of Sweets restaurant on the bridge. "At the Palace of Sweets they salt their own peanuts and take extra good care of every pound salted. They salt peanuts daily. In no way are they like the kind you buy in grocery stores."

NEWS OF A PERSONAL NATURE

Mr. and Mrs. T. B. Woodland and Mr. and Mrs. W. H. Rider, of Chicago, were in the city yesterday on an automobile trip through the state. They left Chicago Tuesday morning and stopped at a number of places of interest along the route.

Rev. R. C. Denison was down from Lake Kegonsa for a short time yesterday to make arrangements for the Sunday evening service. It had been expected that the local W. C. T. U. would take charge of this service but for unavoidable reasons this plan was abandoned.

Miss Lillian Bourgemyer returned home last evening from Milwaukee to attend the funeral of the late Mrs. Rose Gibbons, which was held this morning. Miss Bourgemyer was called to Milwaukee to be present with her sister, who is a nun in the Racine convent, during a difficult surgical operation which was performed at St. Joseph's hospital last Monday morning. Miss Bourgemyer's sister was declared out of danger yesterday, and the attending physicians believe that her recovery is certain.

Mrs. W. S. Jeffris and children, Kenneth and Katherine, went to Lake Delavan yesterday to spend two or three weeks. They are stopping at Lake Lawn hotel where Mrs. M. C. Jeffris and children are also enjoying an outing. Little Miss Margaret youngest daughter of Mr. and Mrs. W. S. Jeffris, is just recovering from the whooping cough and she will remain at home with her father until all danger of contagion is past, when she will join the campers.

While You Sleep Your Profits Go On

While this is said of farming it is equally true of Life Insurance. If you invest money in a policy in the Aetna Life Insurance Company, this old saying will apply just as forcibly as it will about farming: If you are not in line for life or endowment, you may be for accident or health insurance. The Aetna Life is the largest company in the world writing these four branches of insurance. When in the market do not fail to "Come with us and we will do you good."

Ralston

and Peaches please the palate.

HERE'S ANOTHER DELICACY: Slice peaches into your dish of Ralston Breakfast Food, then add cream and sugar.

Of all breakfast foods, Ralston is the greatest palate-pleaser, because it's unexcelled.

Cooked in five minutes, Ralston Breakfast Food retains the delicious flavor Nature has bestowed on Glutinous Wheat, and is cooling nourishment because it doesn't overheat the blood.

The soft fruit brings out the fine flavor of Ralston in striking contrast to interior foods.

FOOTPADS ARE AT WORK IN BELOIT

Anthony Howard, a Saloonkeeper, is Beaten into Insensibility and Robbed, Early This Morning.

Beloit, Aug. 16.—Anthony Howard, the well known State street saloon keeper, was waylaid and robbed early this morning by three footpads within a block of his home. The robbers secured a gold watch and some silver change but overlooked a big roll of bills in Howard's inside vest pocket. He defended himself vigorously but was finally overpowered and beaten into insensibility. He wandered about that portion of the city in a dazed condition. The police nabbed the three men at the fair grounds where they were engaged in training horses for the coming races. But the fair grounds were in the state of Illinois and the men could not be held. Winnebago county officials have been called to make the arrests.

TAKES FILIPINO CHIEF.

Lieut. Walter Grant Captures Col. Martin Cabrera in Batangas Province, Manila, Aug. 16.—Second Lieutenant Walter S. Grant of the 6th cavalry, while scouting with a detachment near Taal, Batangas province, has made what the military authorities consider to be the most important capture since Aguinaldo was made prisoner. Grant captured Col. Martin Cabrera, his adjutant and six other insurgents. Cabrera had been growing in power for some time. He controlled all the insurgents in southern Batangas and also those westward of the city of Batangas.

Col. Parganiban Surrenders.

Col. Parganiban, a captain and twenty men with twenty-six rifles and considerable ammunition have surrendered to Lieut. Smith of the 20th Infantry. They formed a portion of Gen. Malvar's command. After taking the oath of allegiance they were released. Capt. Policarpio, a lieutenant and five men from the 8th company of Malvar's command also surrendered to Col. Baldwin, refusing at the same time payment for their rifles and revolvers and saying that they surrendered for peace and not for money.

Mindoro Free of Insurgents.

Lieut. Evans reports that he has not seen or heard of any insurgents recently on the island of Mindoro. He reports burning a camp, however, and he succeeded in capturing thirty tons of rice. He says the people in the valley back of Naujan reside in the richest farming country of the islands. The district is thickly settled and plentifully supplied with cattle and rice. Gen. Chaffee is greatly pleased by these accounts from the province of Batangas and the island of Mindoro.

SAGE GIVES POOR AN OUTING.

Poughkeepsie Youngsters Enjoy His Hospitality.

Poughkeepsie, N. Y., Aug. 16.—Russell Sage made yesterday the happiest day of the year for 1,000 poor children of Poughkeepsie. "Uncle Russell," as he is called by the boys and girls, is president of the Poughkeepsie & Eastern railroad, a forty-five mile road running from this city to Boston Corners. He also owns Upton Lake, on the line of the road.

It has been Mr. Sage's custom for the past three years to turn his railroad and park over to the children one day in the summer, intrusting the arrangements entirely to Superintendent Madison of the Rescue Mission. Everything was free for the children, but the grown-ups were required to pay 25 cents for the round trip.

PROVING A PAYING CAMP.

Koyukuk Diggins a Strong Attraction for the Prospector.

Seattle, Wash., Aug. 16.—The first detailed news received since last winter from the Koyukuk diggings is to the effect that the camp is turning out well, with 300 men there. Half a dozen creeks are doing excellently, one property paying \$1,000 a day. The camp is not a new Klondike, but as an attraction to men who are casting about for a new placer field it is the strongest offered this season. No one should go there, however, without an outfit calculated to last a year, as food is scarce and transportation difficult. Except by private enterprise, it is too late to get into camp this season. The distance from Dawson by all-river routes is 1,500 miles.

AERONAUT'S NERVE GOES.

John Sullivan Weeps and William Keifer Takes His Place.

Springfield, O., Aug. 16.—Just as the balloon was about to be cut loose at Island Park, John Sullivan, who was tears and cried: "I have lost my nerve; I cannot do it."

William Keifer, who until then had never been otherwise than a spectator at a balloon ascension, volunteered his services and insisted that he would go up in it. Against the protests of the crowd Keifer pulled off his coat and shoes and made one of the prettiest ascensions ever seen in this city. He cut the parachute loose with the air of a professional and is being complimented by his companions upon the nerve he displayed.

Naphtha Launch Blown Up. Harbor Springs, Mich., Aug. 16.—The naphtha launch Delora, owned by S. C. Edgar of St. Louis, blew up on Little Traverse Bay. The occupants were badly burned about the hands and arms, and were rescued by the steamer Lora A. Cumming.
